

Happy Easter!

Grow your own Sugar Snap Pea plant!

1. Add water to the peat pellet in the jiffy pot.
2. Once the peat pellet has expanded, push the pea seed into it (about 1" deep).
3. Put in the sun and spray with water – watch it grow!
4. When ready to plant, put the whole jiffy pot into the soil – it will decompose quickly.
5. ENJOY!
